R. H. EDDY,

SOLICITOR OF PATENTS.

Late Agent of U. S. Patent Office, Washington,

(under the Act of 1837.)

No. 76 State St., opposite Kilby St.,

BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries, Caveats, Specifications, Bonds, Assignments, and all papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON

Commissioner of Patents.

I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration of the Patent Office.

EDMOND BURKE,

Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges."

JOHN TAGGART.

During eight months the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

THE TWO SYSTEMS.

Religion, morals, financial and political prosperity, among ourselves and throughout the world, are to be vitally affected by the result of our terrible struggle. Society is being disturbed in its every interest from centre to foundation. But perhaps the class the most directly interested in the conflict is the working class.—Two forces, two forms of civilization, two systems of society, not only essentially distinct, but utterly incompatible, are engaged in efforts to strangle and destroy each other. Free Industry and Servile Labor now have each other by the throat, and it remains to be seen which is to accomplish the victory.

In our industrious, economical, free North, Labor has been more honored than in any other part of the world.

In the Slave States, on the other hand, Labor has been more dishonored and degraded, than it has been in any other part of the civilized globe.

The industrial life which in the North justly secures for the laborer a position of independence and respect, in the South deprives him of all the rights of humanity, except to lie down and die, and degrades him to the level of a beast of burden. A "pointer" dog is of more consequence than a delving man. The Southern States have taken ample care there shall be no mistake on this vital point. Over and over again in official documents, in the speeches of their leading public men, in their chief organs of opinion, they have declared implacable hostility to free industry and free society in any shape.

In the Constitution of the Confederacy, it is true that the principles of the old national instrument have not been departed from to any extent, except in the one subject of free labor, Slavery is declared to be the only true foundation of society in the world. An inferior race must be the vassals, the servants of a superior. In order that one branch of humanity shall shine with extreme brightness, it is necessary that another branch shall be used as buff-skin wherewith to do the burnishing.

The laborer is to be reduced to the condition of slavery, the white laborer as well as the black. This is the Southern doctrine. Will Northern freemen allow the doctrines to be put in practice? never! The conflict is hard, is long, is full of disappointment, but the Northern freemen know that the force of right is on their side and will in the end prevail.

THE ORIGINAL COPPERHEAD.

You are promised liberty by the leaders of your affairs; but is there an individual in the enjoyment of it, saving your oppressors? Who among you dare speak or write what he thinks against the tyranny which has robbed you of your property, imprisons your sons, drags you to the field of battle, and is daily deluging your country with your blood?

Your country once was happy, and had the proffered peace been embraced, the last two years of misery had been spent in peace and plenty, and repairing the desolation of a quarrel that would have set the interests of Great Britain and America in a true light, and cemented their friendship.

I wish to lead a chosen band of Americans to the attainment of peace, liberty and safety, the first objects in the field.

What is America but a land of widows, orphans and beggars—but what need of arguments to such as feel infinitely more misery than tongue can express? I give my promise of most affectionate welcome to all who are disposed to join me in measures necessary to close the scenes of our affliction, which must be increased until we are content with the liberality of the parent country, who still offers us protection and perpetual exemption from all taxes but such as we shall think fit to impose upon ourselves.

BENEDICT ARNOLD.

A HERO.

Dr. Tolsen, Surgeon of the Forty-fourth Massachusetts Regiment, relates the following incident of noble self-sacrifice which occurred during the siege of Washington, N. C.:—

"I must tell you of one hero who saved a company of soldiers from certain death. A flat full of soldiers, with a few negroes, attempted to land at [illegible], but were repulsed by a terrible fire of rebel bullets—all tumbling into the boat [illegible] to escape being shot. Meanwhile [illegible] rest on the shore, when this noble [illegible] "Somebody's got to die to git us [illegible] may as well be me!" He then [illegible] and pushed the boat off, and [illegible] pierced by five bullets. Dr. Ware [illegible] amputated a leg and resected a part of [illegible], but the man of course died."

[illegible] correspondent of the Chattanooga Rebel [illegible] of the discipline in Gen. Hardee's [illegible]:

"[illegible] an order circulating about the camps [illegible] paragraph of Lieut. Gen. Hardee, for [illegible] the farming community, and [illegible] wise and necessary that [illegible] employed as the common currency [illegible] of the army. When fences [illegible] destroyed, if the guilty parties [illegible] detected, the regiment, brigade [illegible] encampment is required [illegible] and repair the damage."

Our Financial Policy.

The policy of the Secretary of the Treasury has been much criticised by theoretical financiers.—Political economy, however does not yet furnish reliable rules for all contingencies. The best bankers have sometimes violated one of its most authoritative dicta, by buying gold where it was dearer than in the market to which they transferred it, and with good results. The plans of the Secretary, however, are fast vindicating themselves even to theorists; but viewed in their practical influence upon our industrial interests, their beneficial operation became more apparent. The ability of the country to pay the expences of the war, of course, depended mainly on the ability of its labor to produce. To employ labor most beneficially requires capital in the form of money or credit. The rebellion caused a large loss of active capital, and greatly impaired individual credit in the loyal section; the bank circulation of many of our western States was almost annihilated, and the business of all was prostrated by the shock.—Throughout the manufacturing districts thoughtful men were looking to the coming winter with painful apprehensions, and even the husbandman had little encouragement to sow what when garnered would find no purchasers able to pay. There was not in the control of business men sufficient money or credit to employ labor. If in this peculiar state of affairs the government had concluded to absorb all the capital for war purposes, business must have remained paralized, and there would have been no ability to pay taxes or make loans, except from prior accumulation, which would soon have been exhausted. This actual loss of capital, destruction of private credit, diminution of bank notes, the vast requirements of the war, and the subsequent withdrawal of coin, produced the necessity for a very large amount of circulating money to supply the wants of trade, and prevent ruinous depreciation of values. The profit of supplying this currency properly belonged to the government, to the whole people, and Mr. Chase yielding his long cherished and favorite hard money theories, conformed to the circumstances of the time, with the credit of the government furnishing the sinews of labor, and thus securing the sinews of war.

The industry of the country immediately felt the effect. Some changes of occupation involving some loss were required by the new condition, but every man who would work found something to do, and thus employed it is not extravagant to say that the loyal States can now, without unreasonable privation, pay all the expenses of the war, as they accrue, and will come out of it really as rich as they went into it, whereas, if the essential aid to business had been withheld and the government had diverted capital from its ordinary channels to its own use, we should have been rapidly impoverished, while public support by poor rates would have inflicted on us the greater and more incurable evil of national demoralization. In comparison with such possible and probable results the loss or gain of a few millions by this or that mode of raising money is wholly insignificant. It is evident that the government could not long get money at home if the people had no ability to earn, and that in the absence of such ability there would be no basis for a credit abroad.

The emergency had to be met and promptly met at the outset, and it has been well and successfully done by means especially adapted to that emergency. The benefit which has incidentally resulted from the government circulation in the increase of cash transactions is important, and with the promotion of a uniform national currency which is thus inaugurated, will be of a lasting utility.

This little effect produced on the price of gold for a long time after the introduction of the national currency proves that up to that time the issue was not in excess of what was required to sustain, without enhancing prices, and it yet remains to be seen how far the subsequent rise is attributable to the artifices of speculators. It was, however, safe to err in furnishing too much rather than to little. Creditors might suffer by the consequent depreciation, but even they would probably suffer less than by a stringency which would have disabled their debtors and caused a loss of product, in the evil of which all would participate. As regards the cost of the war, it is not material on what standard of value it is estimated if the accruing debt is paid off at the same rate. If the debt is contracted in currency at 70, and paid at the same rate, the government—the people who pay it—lose nothing. If the debt is uniformly accumulated while the currency is uniformly depreciated, say from 100 to 70 per cent, in twelve months, and uniformly paid off while appreciating again from 70 to 100, even though this be through a period of years, instead months, there is still no loss.

The above assertion that we can pay the expences of the war as they accrue may to some appear unfounded, but our most intelligent bankers with European connections say that our foreign debt, national, State, corporate and individual, has been very largely reduced since the outbreak of the rebellion; our gold has increased, the granaries of the west are overflowing, and the property in other forms cannot have materially diminished in the loyal States. From these facts it follows as a necessary consequence that thus far the aggregated people of these States have not only actually paid their current expenses and the extraordinary cost of the war, but have at the same time accumulated national wealth. "B."

The above appears as a communication in the *New York Commercial*. It is we believe, from the pen of a Rhode Island man, and the conclusions which he reaches are very encouraging. If his reasoning is correct, Mr. Chase's policy must be considered as highly successful, and our nation is not only able to pay the expenses of the war, but to do it and increase its wealth at the same time, nay, more, that it has been doing this very thing. Of course, it follows that our national credit deserves to stand high, and our confidence in our financial ability to carry on the war to a successful issue should be unwavering.—*Providence Journal.*

SUPER PHOSPHATE OF LIME.

THE Undersigned agent in Newport for J. J. Mapes, offers for sale the above named valuable fertilizer. The experience of several years in various localities has proved it the most reliable and economical of fertilizers, cheaper, surer, and more lasting in its effects than Peruvian Guano, not so stimulating and productive of fruit and grain rather than leaves and foliage. As a top dressing for meadows, pastures and lawns it has no equal. It is cheaper than bought stable manure, more easily applied, and has the great advantage of producing neither weeds or insects, while it is injurious to many species of the latter. Any information will be given upon application, and certificates of its value can be shown—proving that for the farmer and gardner its effects are most desirable. E. W. LAWTON,

FROM THE GRAND ARMIES.

Movements of the Rebels.

Affairs at Vicksburg.

HEADQUARTERS ARMY POTOMAC, May 28.

The rebel army is evidently moving. General Lee has received an order which was read to the troops a few nights since, congratulating them upon their past achievements and foreshadowing a raid into Maryland. He tells them that they are to have long and rapid marches through a country without Railroads, and calls upon every man to be prepared for the severest hardships. Wonderful victories are of course promised them, and the overthrow of our army predicted as an inevitable event. The trains of the enemy have been seen for several days moving from the depot of supplies below Fredericksburg, and balloon reconnoisances have discovered a large column pushing rapidly in the direction of Culpepper. Whether the army intend making a raid into Maryland, or is endeavoring to get between General Hooker's Army and Washington we are unable to determine. Every one is on the *qui vive* and stirring news may be expected soon from the Army of the Potomac. Everything remains quiet along the river. A few additional rifle pits are being thrown up on the south bank, but the rebel pickets lounge in the shade as usual, apparently oblivious to all operations outside of their own sphere.

The *Tribune* says: no rebel camps are visible on the heights beyond Fredericksburg. Their troops are in motion and seem to be threatening to cross some where up the river and the prospects of an early battle are conversed in our army.

The *Herald* says it is considered by most military men that the rebel strategy looks to terrorising the frontier, while every effort will be put forth to crush Grants army. If he be not able to take Vicksburg by storm he has acquired by a most perilous movement a foothold in the rear of the city which cuts off the entire Yazoo region and will thereby enable him if properly reinforced to push back the rebel base to the Great River of Alabama and thereby ensure the early fall of Vicksburg and Port Hudson.

The *Heralds* Suffolk correspondent of May 26th says that four or five more deserters have come in to-day from the Forty Second Miss. They were a portion of the hundred who deserted from the rebels, and their statement agrees with those who previously came in, that fully that number had on Sunday night deserted on hearing of Vicksburg, scattering and taking different routes to enter our line.

MORE IRON CLADS.

The *Tribune's* Washington dispatch says the Navy Department invites proposals for new Ocean Iron Clad Vessels of war, those previously determined on not having met with general approval. The description of crafts now wanted for sea are as follow: Each vessel to be about 3000 tons burthen, not to draw more than 15 feet of water and to be capable of steaming at least 13 miles an hour, to have two turrets, each fit for two guns which may weigh if necessary 25 tons. The models are to be made by the different contractors offering to build, and I believe the "Plans are to" be furnished by the Navy Department, finally, if acted upon. The ordnance to be used in these vessels although weighing more than dahlgren 15 inch guns will not it is believed be of more than 13 inch bore.

The following firms are understood to have expressed a willingness to make proposals: The Messrs Hecon of Jersey City, Harris & Loring of Boston, Merrick & Sons of Philadelphia, J. F. Rowland of Greenpoint and others. The Department has not yet finally committed itself to the building or not building the 3000 ton vessels. Capt. Ericsson and Chief Engineer Stimens are both at work making plans for the smaller ones, the latter on behalf of the Government and the former for himself.

Harris & Loring of Boston have obtained a contract for one shallow draft vessels similar to those already building.

FROM WASHINGTON.

THE CAPTURE OF VICKSBURG IS DEEMED CERTAIN.

WASHINGTON, May 28.

The latest information from Vicksburg received by the government is contained in an unofficial despatch from Memphis, dated May 27, which states that two boats from Vicksburg had just reached Memphis. This would make the latest dates from Vicksburg to the 25th. The telegram says no official despatches have been received by those boats but that they report that the attack on Vicksburg was progressing and that General Grant was still gaining. It was also reported that Gen. Carr and Col. Bleo's had been killed.

Telegraphic advices to the Government from the Headquarters of the Army of the Potomac report that the rebel pickets to-day shouted across the river to our pickets that the yankees had taken Vicksburg. This undoubtedly is the opinion of the rebels on the Rappahannock, but whether correct or not time will show.

Nothing is heard in regard to the movements of Gen. Johnston, but he is undoubtedly engaged in collecting forces with the intention of attacking General Grant in the rear. But it is not believed that he can obtain force enough before Vicksburg is carried to make a formidable demonstration.

When the boats above mentioned left Vicksburg everything was going on well and it is believed here in official circles that news of the final and complete capture of the place will soon be recorded.

HURRAH FOR BRAZIL.

NEW YORK, May 29.

The correspondent of the Merchant's Exchange and News Room No. 50 and 52 Pine St., writes from Pernambuco as follows: The Brazilian authorities have displaced the Commander at Fernando DeNeronha, for allowing the Alabama to commit depredations in Brazilian waters. The new commander, who was sent to the Island protested against the Alabama remaining there, and ordered her to leave in a few hours. Unfortunately he had no vessel of war to enforce his orders. Every satisfaction in the power of the Brazilian authorities to give had been tendered to the American Consul at Pernambuco.

The Alabama sailed south on the 29th of April.

THE "OLD SIXTH."

BOSTON, May 29.

The "old sixth," Mass., regiment landed from the S. R. Spaulding this morning. This is the second return of the regiment, after honorably and bravely serving its two terms of volunteer enlistment. The men looked in splendid fighting condition and it is said a large proportion of them will re-enlist for the war.

FROM THE SOUTH.

HD'QRS ARMY OF THE POTOMAC, May 28th, 12 P. M.

Richmond papers of the 28th inst. are received. They contain the following:

TULLAHOMA, May 26.

Mr. Vallandigham is now at Shelbyville. A small party of the enemy advanced to near McMinnville yesterday but soon returned without accomplishing anything. All other intelligence is uninteresting.

STILL LATER FROM VICKSBURG.

A special to the *Tribune*, dated Washington, May 28th says: At 11 o'clock this morning an unofficial despatch was received from Memphis saying that a boat has just arrived which left on Sunday. Grant was still gaining round. Gen. Rosecrans telegraphs to-night that Gen. Boyle telegraphs him that there was no fighting at Vicksburg on Sunday, which is contrary to the rebel accounts. The capture of Vicksburg may have been postponed in consequence of the over zeal of Admiral Porter in destroying the heavy guns and munitions at Chickasaw and Haines Bluff. They would have been very useful to Gen. Grant in his operations against Vicksburg.

From the West.

CHICAGO, May 29.

A special despatch from Memphis dated May 26, says that a detachment of the Second Wisconsin Cavalry attacked the guerrillas on the Hernando road on Tuesday, killing five and capturing five. A few days since a detachment of the Fifth Kansas and Third Iowa Cavalry fought with a superior force of guerrillas, seven miles back of Helena, and finally drove them off. Their reported loss is nine killed and twenty-one wounded, among the latter their Colonel. The federal loss was four killed, twenty wounded and several prisoners. On the 24th inst., Col. Hatch had a fight with 200 of Chamber's guerrillas near Senatobia, capturing sixty, killing ten and wounding twenty.

FROM BOSTON.

BOSTON, May 29.

The S. R. Spaulding arrived this morning at 6 o'clock.

FROM CALIFORNIA.

SAN FRANCISCO, May 27.

A Sugar Refinery Company, with $890,000 Capital stock was organized in this city yesterday. Several prominent San Francisco merchants were elected trustees.

NEW YORK, May 29.

The Frigate Sabine, to-day takes position off the battery as a permanent guardship of New York.

An explosion took place in Wilson's Cracker bakery, Cherry Street yesterday afternoon, severely burning six men, two fatally.

A band of contraband traders were captured last week at Urbana Va. The bridge over Urbana bay was burned and several rebel mails captured as also several rebel officers by a detachment of the Third Indiana Cavalry.

The *Times* London letter of the 16th says a vessel of the Chinese fleet, building in England has left this week. She is an iron paddle steamer of 600 tons, built by our friends Laird Brothers of Brokenhead, is double plated with a ram stem, six gun and a Whitworth 32, and 90 picked men. Of course she is intended to smash up the junks of the Taepings in the China seas, but if she or any others of this squadron should lose their way and find themselves in the Gulf of Mexico it would not be a matter of special wonder.

MILITARY TRIALS FOR TREASON.

Much surprise has been excited in official circles by the proceedings of a Military Commission in the army of the Potomac of which Gen. Daniel E. Sickles was President. The nature of the three cases referred to is sufficiently apparent from the charges and specifications in, one of which is as follows *Charge*: Treason. Specification: In this case James R. Oliver, being a citizen Maryland was taken prisoner while in arms in the ranks and uniform of the Rebel army at Rappahannock ford, Feb. 25th 1863. The accused pleaded guilty to the specifications but not guilty to the charges. The charges filed with the commission set forth that in April 1862 he went to Richmond intending to make his home there and enlisted in course of the same month. Upon this state of fact the Court found the accused guilty of treason and sentenced him to be hanged. Gen. Hooker forwarded the proceedings with the endorsement "strongly approved," but the President perceiving the dangerous heresies and terrible consequences involved in such a precedent disapproved, adding that the men in question were prisoners of war and were entitled to be treated as such, and to be exchanged.

STILL FURTHER FROM VICKSBURG.

CHICAGO, May 29.

The *Times* has a special despatch dated, in the field near Vicksburg May 23, 9 o'clock p. m. This despatch says there has been no fighting to day. The troops are resting from yesterdays assault. Our repulse was complete in all parts of the line. No discouragement need be entertained of our final success. We are entrenching ourselves and building rifle pits. The cavalry have been sent out towards Canton to ascertain the whereabouts of General Johnston's forces. Our loss yesterday was not far from one thousand.

The *Times* has also the following special despatch. Memphis May 27th. The steamer Sultana from Youngs Point is reported lost. On Friday the federal forces were repulsed at Vicksburg.

The Steamer City of Memphis, which left the vicinity of Vicksburg on Monday last arrived here to-day, and reports Gen. Grant as having captured every rebel redoubt. At one place it was necessary, owing to the sterness of the will to scale it with ladders. Gen. Hovey led the assault. The rebels rolled their shells down the hill at the federals, which fell amongst them making fearful havock. The fighting was going on favorable when the City of Memphis left. The federal losses are said to be very heavy.

FROM NEW YORK.

Times The Secretary complaints of the Recent panic stricken stories about a Heavy Rebel invading Column moving on Pennsylvania and says there has been no time since the beginning of the war when the Rebellion was so weak. a Reconnoitering force sent out by Gen. milroy at winchester arrd at fairfax this Evening. They came in Vienaldies gap & report no Rebels Visable in the country traversed great desitution pre vails among the Residents of that part va. "KNOWLEDGE IS POWER."

GREAT INDIAN REMEDY

FOR FEMALES.

Dr. Mattison's Indian Emmenagogue.

This celebrated Female Medicine, possessing virtues unknown of anything else of the kind, and proving effectual after all others have failed, is designed for both *married and single ladies*, and is the very best thing known for the purpose, as it will bring on the [illegible] *sickness* in cases of obstruction, from any cause, and after all other remedies of the kind have been tried in vain.

OVER 2000 BOTTLES

have now been sold

without a *single failure*, when taken as directed, and without the least injury to health *in any case*. ☞ It is put up in bottles of three different strengths, with full directions for using, and sent by express, *closely sealed*, to all parts of the country.

PRICES—Full strength, $10; half strength, $5; quarter strength, $3 per bottle.

☞ *Remember! This medicine is designed expressly for* OBSTINATE CASES, *which all other remedies of the kind have failed to cure; also that it is warranted as represented* IN EVERY RESPECT, *or the price will be refunded.*

☞ BEWARE OF IMITATIONS! None genuine and warranted unless purchased *directly of Dr. M. at his office.* ☞ Accommodations for ladies wishing to remain in the city a short time for treatment.

Dr. Mattison's Diuretic Compound

For [illegible] of [illegible]

This new remedy contains neither Balsam, Copaiva, Spirits of Nitre, Cubebs, Turpentine, or any other nauseous drugs, but is an elegant vegetable [illegible] to the taste and smell, grateful to the stomach, soothing, cleansing and healing in its operation and speedily [illegible] all heat and irritation in the urinary passages. Then, therefore, who have been swallowing down *Balsam* [illegible] either in capsules or mixtures, for months in succession, until with pale face and disordered stomach your breath and clothing are filled with its vile odor, throw away the disgusting mixtures and send for a bottle of this *New Remedy*, which will not only cure you *at once*, but at the same time it will cleanse the system from the injurious effects of the various mixtures you have been taking so long.

☞ ONE BOTTLE, WHICH LASTS A WEEK, WILL OFTEN EFFECT A PERMANENT CURE.—Price $2,00.

Dr. Mattison's Anti-Syphilitic Syrup,

For Constitutional Syphilis

No remedy ever discovered has done what has been achieved by this. Under its use every form of constitutional syphilitic taint is speedily cured, and in a few weeks the subtle poison is completely eradicated from the system, and health and strength are permanently restored.

☞ *It was this remedy that cured, in a few weeks a gentleman from the South, then stopping at Newport, and for which he presented Dr. M. with $150 besides his bill, after having been under the treatment of the most eminent physicians in Baltimore, Philadelphia and New York for* FIVE YEARS.

One bottle, which lasts a month, will often effect a perfect cure. Price, $10; half size, $5.

Dr. Mattison's Nerve Invigorator,

For Nervous Debility, Loss of Power, Impotency, Confusion of Thought, Loss of Memory, Irritable Temper, Gloomy Apprehensions, Despondency and Melancholy, which may end in Loss [illegible].

This new remedy for that fearful train of mental and physical evils arising from venereal excesses, and secret habits of the young, is composed of the most soothing, strengthening and invigorating medicines to be found in the whole Vegetable Kingdom, which, in combination, form the most perfect antidote for this obstinate and distressing class of maladies ever yet discovered. It has now been sent to nearly every State in the Union, relieving the untold sufferings of hundreds who have never seen the inventor, restoring them to comparative health, strength and happiness. *Price*—Quart bottle, which lasts a month, $10; half size, $5.

☞ These four GREAT REMEDIES are the result of over twenty years' study and practice, and as now prepared they are known to be the *very best* for their respective purposes, and I am therefore induced to make them public for the mutual benefit of myself and the sick, who otherwise could never avail themselves of their benefits. They are all warranted as represented, in every respect, or the *price will be refunded*.

☞ Prepared and sold ONLY at DR. MATTISON'S REMEDIAL INSTITUTE FOR SPECIAL DISEASES, rear No. 28 Union street, Providence, R. I., and sent by express, *secure from observation*, to all parts of the United States.

A WORD OF CAUTION.

☞ It has been estimated that over *Ten Hundred Thousand Dollars* are paid to swindling quacks annually in New England alone; and that, too, without *any benefit* to those who pay it. All this comes from trusting, *without inquiry*, to men who are alike destitute of honor, character or skill and whose *only* recommendation is *their own false and extravagant assertions* in praise of *themselves*. The only way to avoid imposition is to take no man's word, *no matter what his pretensions are*, but MAKE INQUIRY. It will cost you nothing, and may save you many regrets; for, as advertising physicians in nine cases out of ten are *bogus*, there is no safety in trusting *any of them* unless you know *who* and *what* they are.

Dr. M. will send *free*, by enclosing one stamp as above, a Pamphlet on DISEASES OF WOMEN, and on *Private Diseases* generally; giving full information, with *the most undoubted references and testimonials* without which no advertising physician, or medicine of this kind is deserving of ANY CONFIDENCE WHATEVER.

☞ Orders by mail promptly attended to. Write your address plainly and direct to DR. MATTISON as above. n18-1y

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

IS THE ONLY REGULAR GRADUATE PHYSICIAN ADVERTISING IN BOSTON.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

STRANGERS AND TRAVELLERS.

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities,

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines *by the dead*, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than is cured," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

CURE THAT COUGH OF YOURS.

Use the best, Surest, and cheapest Remedy the world has ever produced.

ONLY 13 & 25 CENTS PER BOTTLE.

MADAME ZADOC PORTER'S

GREAT COUGH REMEDY.

MADAME ZADOC PORTER'S, Curative Balsam is warranted if used according to the directions, to cure in all cases, Coughs, Colds, Whooping Coughs, Asthma, and all affections of the Throat and Lungs.

MADAME ZADOC PORTER'S BALSAM is prepared with all the requisite care and skill, from a combination of the best remedies the vegetable kingdom affords. Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the blood, through the lungs. It is not a violent remedy, but emollient,—warming, searching and effective; can be taken by the oldest person or youngest child.

MADAME ZADOC PORTER'S BALSAM has been used by the public for over 18 years, and has acquired its present sale simply by being recommended by those who have used it, to their afflicted friends and others.

MOST IMPORTANT.—MADAME ZADOC PORTER'S CURATIVE BALSAM is sold at a price which brings it in the reach of every one to keep it convenient for use. The timely use of a single bottle will prove to be worth 100 times its cost.

NOTICE.—SAVE YOUR MONEY!!!—Do not be persuaded to purchase articles at 4s. to $1, which do not contain the virtues of a 13 ct. Bottle of Madame Porter's Curative Balsam, the cost of manufacturing which is as great as that of almost any other medicine; and the very low price at which it is sold, makes the profit to the seller apparently small, and unprincipled dealers will sometimes recommend other medicines on which their profits are larger, unless the customers insist upon having Madame Porter's and none other. Ask for Madame Porter's Curative Balsam, price 13 cts., and in large bottles at 25 cts., and take no other. If you cannot get it at one store you can at another.

Sold by all Druggists and Store-keepers at 13 cts. and in larger bottles at 25 cts.

Is the first and only remedy ever offered to the public for the effectual removal of the Ascarides, or Pin Worms, from the human system. The high reputation it has established in the last two years, and the fact that it is fast superceding all other worm remedies, is the best test of its great reliability.

THIS SYRUP is also a most valuable family cathartic, to be always used when physic is required, ESPECIALLY FOR CHILDREN. DYSPEPSIA & FITS.

A SURE CURE FOR THESE DISTRESSING COMPLAINTS IS NOW MADE KNOWN IN A

"Treatise on Foreign and Native Herbal Preparations,"

Published by DR. O. PHELPS BROWN.

The prescription was furnished him in such a providential manner that he cannot conscientiously refuse to make it known, although he never was a believer in Clairvoyance, Spiritualism, Psychology, &c. This remarkable remedy has cured everybody who has tried it, never failing in a single case. It is equally sure in cases of Fits as of Dyspepsia; and the ingredients may be found in any drug store. Those who are afflicted with Consumption, Bronchitis, or Asthma, may also be cured by the use of my Herbal Preparations, which are charged with electro-magnetic properties, and an *aura* or aromatic atmosphere is continually emanating from them, in consequence of the *positive* and *negative* repulsion of its atomical electro-magnetical principles, thereby rendering their efficacy truly wonderful in all cases of Lung Complaints. I will send this valuable prescription free to any person on receipt of their name.

The subscribers have become agents of the patent GALVANIZED IRON COFFIN, a new article finished in the most beautiful manner and made of what has proved by years of experience to be *the most imperishable of all materials.*

This article in shape and outward appearance resembles a highly finished rosewood coffin. It is much less awkward, in appearance lighter, more efficient and easier handled than the cast iron coffins which have been in use for several years.
